5. Amend the definition of the “practice of land surveying” contained in § 54.1-400 as follows:

“The ‘practice of land surveying’ includes surveying of areas for a determination or correction, a description, the establishment or reestablishment of internal and external land boundaries, or the determination of topography, contours or location of physical improvements, ~~and also includes~~ *or* the planning of land and subdivisions thereof. The term “planning of land and subdivisions thereof” shall include, but not be limited to, the preparation of incidental plans and profiles for roads, streets and sidewalks, grading, drainage on the surface, culverts and erosion control measures, with reference to existing state or local standards.”

6. Remove the specific entry requirements from § 54.1-414

regarding certified interior designers and provide the Board with the authority to establish such entry requirements in regulations;

7. Reduce the licensing exemptions (see attached which also includes some of the language relating to making consistent use of the term "professional engineer" and "engineering" in Chapter 4 of Title 54.1);
8. Make consistent use of the term "professional engineer" and "engineering" in Chapter 4 of Title 54.1;
9. Modify the definition "certified landscape architect" in § 54.1-400 to read "Certified landscape architect" or "landscape architect" means;
10. Modify § 13.1-553 (Professional Corporations) to correct an oversight regarding certified interior designers when this portion of the Code was amended to allow them to form PC's in 2000:

"§ 13.1-553. Board of directors.

"Except as provided in an agreement adopted pursuant to § 13.1-671.1 that is not in conflict with § 13.1-544, a professional corporation organized pursuant to the provisions of this chapter shall be governed by a board of directors, which shall have the full management of the business and affairs of the corporation and continuing exclusive authority to make management decisions on its behalf, and no shareholder shall have the power to bind the corporation within the scope of its business or profession merely by virtue of his being a shareholder. The articles of incorporation may prescribe the manner in which the board of directors shall be chosen and the number thereof, subject to the following provisions: a corporation rendering the services of architects, professional engineers, land surveyors and, certified landscape architects and certified interior designers, or any combination thereof, may elect to its board of directors not more than one-third of its members who are employees of the corporation and are not authorized to render the services of an architect, a professional engineer, land surveyor or certified landscape architect."

11. Amend § 54.1-404 as follows:

“§ 54.1-404. Regulations; code of professional practice and conduct.

“A. The Board shall promulgate regulations not inconsistent with this chapter governing its own organization, the professional qualifications of applicants, the requirements necessary for passing examinations in whole or in part, the proper conduct of its examinations, the implementation of exemptions from license requirements, and the proper discharge of its duties.

...

“B. Notwithstanding the provisions of Chapter 40 of Title 2.2, as amended, in order to make a case decision regarding an individual applicant or regulant, a majority of the board members qualified to vote, and at least one member of the profession involved of those qualified to vote, must vote for the case decision. If no members of the profession involved are qualified to vote on the case decision, then only a majority of the board members qualified to vote shall be required.”

12. Modify the first sentence of the second paragraph of § 54.1-409 to delete the list of professions and insert the word “anyone” in their place; and
